OBJECTIVE

Computer Science student and ML Engineer Intern with hands-on experience in computer vision, full-stack development, and AI-driven automation. Proven ability to build end-to-end solutions for public safety and healthcare applications, leveraging strong CS fundamentals and agile collaboration to engineer scalable, real-world systems.

SKILLS

Languages: Python, Java, JavaScript, HTML, CSS, SQL, C, Node.js

Core Skills: Data Structures, Algorithms, DBMS, Computer Networks, Machine Learning

Soft Skills: Communication Skills, Leadership, Work Ethic, Teamwork, Collaboration

Tools: VS Code, Docker, Cursor, Git, GitHub, N8N, Zapier

EXPERIENCE

ML Engineer Intern

Nov. 2025 – Mar. 2026

Hexart.In by Hexagon

Hyderabad, Telangana

- Engineered a canine biometric identification system using nose-print recognition for vaccination tracking, improving detection accuracy from 68% to 85% and reducing processing time by 40% through optimized feature extraction.
- Implemented YOLOv8, ORB, embeddings, and end-to-end computer vision pipelines for real-world use cases.

AI Developer Intern

June 2025 – July 2025

Viswam.Ai from Swecha

Hyderabad, Telangana

- Built a multimodal data collection application supporting voice, text, and image inputs, increasing data acquisition efficiency by 50% and reducing manual preprocessing efforts by 35%.
- Contributed to dataset creation for chatbot development and training, supporting NLP model performance.

PROJECTS

College Support Chatbot for CMRTC | *Python, Flask, React, REST API, JSON* | [Github](#)

- Worked on an AI chatbot to assist students with queries about admissions, courses, events, and campus facilities at CMRTC.
- Focused on providing quick and reliable support through a user-friendly interface.

Voice Agent for Desktop Assistance | *Python, NLP, Automation* | [Github](#)

- Engineered a voice-controlled assistant to automate system operations including system control, application management, browsing, and email handling.

BlueTrack – Attendance System | *React, Node.js, Supabase* | [Github](#) | [Demo Link](#)

- Built a responsive web application for workforce attendance management with real-time tracking and analytics dashboard, eliminating manual record fraud.

EDUCATION

CMR Technical Campus

Hyderabad, Telangana

B.Tech in Computer Science and Engineering (AIML), CGPA: 7.97

2024 – 2027

Jyothishmathi Institute of Technology and Science

Telangana, India

Diploma in Electrical and Electronics Engineering, CGPA: 8.35

2021 – 2024

COURSES & CERTIFICATIONS

[Agentforce Specialist - Salesforce](#)

[C Programming - IIT Bombay](#)

[Machine Learning Fundamentals - AICTE Google Internship](#)

[Blockchain Network - IDS Hedera](#)

ACHIEVEMENTS

[Smart India Hackathon 2024](#) - Selected at college level to represent CMR Technical Campus.

[1st Place, Institute Innovation Council](#) - Achieved a college support chatbot solution.

[1st Place, Robotics Competition](#) - Achieved a mobile-operated robot solution.

[2nd Place, Business Buzz](#) - Presented an innovative business model on a solar-based tracking system.

President 2026, Event Lead 2025, Executive Member at **AI Club CMRTC**
